

1 PhD student in the research education subject: Landscape Architecture

Landscape Architecture Design Theory

The subject area includes research and teaching on the design process and its outcomes within the field of landscape architecture. The successful candidate will be expected to develop a qualitative and/or quantitative research agenda on the processes and products of landscape design education. This research may focus on the SLU landscape architecture programs but its ultimate aim should be international comparison across design disciplines.

The successful candidate will be expected to contribute actively to strengthening the research and teaching environment at the Division of Landscape Architecture, and to shaping the development of 'design theory' as a distinct subject area. This will include:

- developing a long-term research project in the subject area, in collaboration with the subject area leader;
- disseminating the results of this research through publishing and conference participation in Sweden and abroad;
- contributing to teaching in the landscape architecture program;
- collaborating with researchers, teachers, and students both within and beyond SLU.

Required qualifications:

- Master level degree in landscape architecture or other environmental design discipline
- Proficiency in English

Desirable qualifications:

- Experience in design teaching in landscape architecture or other environmental design discipline
- Proficiency in Swedish or other Scandinavian language

Attach to application:

- CV listing relevant education, experience, and publications
- Statement of purpose outlining your interest in the position (in English)
- Names and contact information of two (2) academic and/or professional references

Qualifications

See above.

Forms for funding or employment

Employment as PhD student

SLU is an Equal Opportunity Employer.

A person has basic eligibility for third cycle education if he or she has taken a second cycle qualification or has completed course requirements of at least 240 higher education credits, including at least 60 higher education credits at second cycle education. Upper secondary school grades equivalent to English B/English 6 are a basic requirement.

Selection among applicants meeting the requirements is made with reference to written application including curriculum vitae, copies of degrees and transcripts of academic records, one copy of the dissertation for masters or undergraduate degree, a list of at least two references familiar with the applicant's qualifications, certified knowledge of the English language and an interview.
